THE LEVANTINE CERAMICS PROJECT 2016 WORKSHOP 5

AIAR, JERUSALEM, DEC. 30<sup>TH</sup>, 2016

### Wares and Shapes of the Persian period (6<sup>th</sup>-4<sup>th</sup> c. BCE) in Israel

We have two goals for this workshop: first, to work towards better definitions and descriptions of local wares of the Persian period, and second, to add this information, along with drawings and photographs of specific examples, to the LCP. We will discuss how to add vessels to wares and petro-fabrics already on the site, and also how to identify new wares. In the end we hope for a more refined and detailed view of the ceramic landscape in the Persian period.
